Summer weather in Florida is attracting attention in other states than ours.

The twentieth century should not give much of its time nor space to factionalism of whatever brand.

We are not so prosperous up this way and the average Marion county citizen is not declining official plums.

A good many of the Spanish and Cuban cigar makers have left Tampa and gone to New York, Havana and other place on account of the strike.

The state press is very generous in its praise of Judge Hocker and seem more than delighted with his appointment as one of the aids to the supreme court judges.

We are receipt of a copy of Gibson's American Queen, a very beautiful picture, sent us by the American Queen Publishing company of New York, which we very greatly appreciate.

What gives the Florida peach and the Florida orange their superior flavor to the peach and orange of other states? There is something in our soil and our climate that are indeed very gracious and very marvelous.

By burning Beaumont oil it is said the state institutions at Austin can save over \$12,000 annually. A pipe line will be built to the institutions from the depot.—Gonzales (Texas) Inquirer.

The affectionate purposes of some men must not be trifled with. An over-ardent Paducah, Ky., negro husband deliberately shot his wife in the back because she refused to kiss him good-bye.

Capt. Schley, eldest son of Admiral Schley, asks the pertinent inquiry: "If the American navy had been defeated at Santiago on whom would the blame have rested, on Admiral Sampson and his ninety miles away?"

A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but two one dollar bottles of Foley's Kidney Cure effected a permanent cure." Anti-Monopoly Drug Store.

We have received the first issue of the Beaumont, (Texas) Herald. It will soon occupy an up-to-date seven story building and in all other respects is an entirely modern publication. Its editorial and business staff is composed of twenty-six persons. It is the outcome of the oil find.

Three hundred Alabama negroes who went to Illinois to work in the Latrobe mine were sent back on peril of their lives. It seems that the Illinois people love the negro only in the republican state and national platforms. Crocodile tears for the "poor negro" flow copiously every presidential year.

"My baby was terribly sick with the diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave immediate relief and a complete cure."

Col. J. A. Ammons returned Saturday from Ocala where he went on business before his Honor, Judge W. A. Hocker. Col. Ammons stated, to his surprise he found the grand judge disengaged, and when he entered the office that dignified official was seated at his desk engaged in masticating a bag of peanuts.—Gainesville Sun.

What most people want is something mild and gentle, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by Anti-Monopoly Drug Store.

Prof. Gunton says that the "yeast of our industrial progress, the only initiative, is consumption. Not the consumption of another nation, not the consumption of other classes, but the consumption of our own people, the masses."

One of the owners of an oil gusher in Texas has twin daughters, and has named one Kerosena and the other Napthalina. The Denver Post says when they reach the age at which the flames of love can be kindled it will be a risky business for young sparks to come flashing around in their vicinity. To which bright remark the Beaumont Herald adds: "Yes, a match will do the work, and then they will go off".

The laws of health require that the bowels move once each day and one of the penalties for violating this law is piles. Keep your bowels regular by taking a dose of Chamberlain's Stomach and Liver Tablets when necessary and you will never have that severe punishment inflicted upon you. Price 25 cents. The appointment of Hon. Church Croom to be comptroller is receiving the favorable endorsement of the press of the state. The appointment was secured without personal solicitation or application either on the part of Mr. Croom or his friends. At the time of his appointment he was away from home and his good fortune was a complete surprise to him. If it is true that like begets like, and we believe it is, Mr. Croom is a good man for he certainly had a good mother.

Mr. Daniel Bantz, Otterville, Ia., says: "Have had asthma and a very bad cough for years, but could get no relief from the doctors and medicines I tried, until I took Foley's Honey and Tar. It gave immediate relief, and done me more good than all the other remedies combined. Anti-Monopoly Drug Store."

The Florida Divorce Law.

For the benefit of some of our readers we here give a synopsis of the new divorce law, passed at the last session of the legislature. The bill was drawn up by Senator George P. Raney, of Leon, and Representative W. L. Palmer, of Orange, and was introduced by the latter.

This measure does not allow a divorce for all forms of insanity, but is so guarded as to provide against possible abuse. The insanity must be of an incurable character, and a decree of incurable insanity must have been rendered for four years, and the insane person must have been under expert treatment in any asylum or home for the insane prior to the decree of incurable insanity. All this must be made to appear before the court will permit a bill for divorce to be filed. The law cannot be applied save in cases of absolute and incurable insanity of long standing and fully established by expert evidence.—Palatka Times-Herald.

The Elevation of Political Lightning Poles.

The above figures demonstrate the fact that the Florida shales are very much superior to shales derived from other sources, and this fact would therefore indicate that should oil be found in this country it is extremely probable that such oil would prove to be an exceptionally high grade paraffin oil.

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system.

Distinctions and Differences.

Some time since the Journal took it upon itself to account for the sudden conversion of Editor Frank Harris, of the Ocala Banner, by saying that his democracy had been very unfavorably affected by his appointment as a trustee of the State Agricultural college at Lake City—"an institution in which the influence of Mr. Flagler and his friends must be accepted as supreme."

The versatile editor of the Ocala Banner can find nothing more convincing to say in reply to this than the following:

"The editor of the Ocala Banner was appointed a trustee of the Florida Agricultural college at Lake City by Governor Mitchell in the early part of his administration and was re-appointed by Governor Bloxham. So if his appointment as a trustee of that institution has unfavorably affected his democracy the matter is of nearly ten years' standing."

The Journal is aware of the fact that the Ocala editor was appointed by one governor and re-appointed by another. We are also aware of the fact that the Flagler influence we have in mind had not at the time of his original appointment made itself felt in Lake City. That was reserved for a later stage of the game, and as Mr. Harris was at that time in office his deference to the corporation ideas he formerly contested, dates, not from the time of his appointment, but from the moment when his proud spirit first submitted to the fatal spell.

We trust that we have succeeded in making this distinction clear to the alert intelligence of the gentlemen from Ocala, who at one time posed as the defender of the democratic faith and whose sudden defection is one of the most significant signs of these, or any other times—Pensacola Journal.

The editor of the Ocala Banner confesses that the above distinction, though somewhat labored, is not at all clear to him. He does not know whether it means that he should have resigned from the board of trustees of the Florida Agricultural college as soon as Messrs. Wilson and Parrott were made his colleagues or whether he should have voted against the acceptance of Mr. Flagler's donation to the college and by so doing deprive the students attending same the benefits and pleasures of a gymnasium, natatorium, etc.

Nor does he see why the question of politics should intrude in the college.

Is the principle of receiving gifts to educational institutions wrong, and shall we give Mr. Carnegie, Mr. Rockefeller, Mr. Stetson and Mr. Flagler no help in their efforts to turn loose their wealth for the benefit of the poor?

We think the esteemed editor of the Journal is suffering under a delusion. We think he has mistaken some other platform for the one adopted at Kansas City.

The democratic party is making no war on wealth, nor on industry, nor is it opposed to the establishment of libraries, hospitals, asylums, homes, schools, and universities, by the rich men and women of our country.

As to the Journal's charge of "defection" it is some consolation to the editor of the Ocala Banner to know that the same charge is made against Mr. Bryan for saying pleasant things about Cleveland's wealthy mayor and for saying further that the same conditions do not now exist for the free coinage of silver as when the campaign of 1896 was fought and other things more important for the time being may press forward for settlement.

A man who shuts his eyes to the present and hugs more closely the issues that are past has no part among the living and should take his place beside the mummies of Egypt.

Wallace Stovall Suggested for Governor.

In several issues of the Metropolis recently there have been articles relating to editors as governors of various southern states. In recent years Florida has had only very ordinary ability in the executive chair. Our state is largest in area and her resources the least developed by any east of the Mississippi river. A brainy man as governor, strong with health, optimistic in thought, pure in character and firm in purpose as is Wallace F. Stovall, editor of the Tampa Morning Tribune, would give our commonwealth a brilliant tenure of office and more solid prosperity than has been before. Well known and popular throughout the state, in his local town his name is a synonym of business honor. A Kentuckian by birth, a gentleman by nature and a scholar by reason of long newspaper service, his nomination would reflect honor upon all editors throughout the state, whose services have been so valuable to our people.—M. L. in Jacksonville Metropolis.
